SECURITY OFFICERS CAN'T BE EVERYWHERE. BUT INTELLISEE CAN.

1 IN 4
MASS SHOOTINGS
OCCUR IN AN
EDUCATIONAL ENVIRONMENT

Colleges and universities have incredibly complex security challenges. Campuses are often widespread and open to anyone, frequently playing host to sporting events, concerts, and large gatherings. Many students may reside on campus, making overnight security a high priority. Threats to safety are constantly increasing, yet resources are decreasing and security is stretched thin, tasked with monitoring an unmanageable number of surveillance screens while also responding to on-campus situations. **With so many variables, how do you keep everyone safe?**

GET SMARTER WITH INTELLISEE®

IntelliSee is an AI threat detection and risk mitigation platform that adds a complementary layer of security to your existing surveillance without adding personnel or expensive upgrades. IntelliSee uses advanced AI to monitor, detect, and alert you to threats, so your people can act and respond faster.

MONITOR

Simultaneously monitor existing surveillance cameras 24/7/365 to proactively detect multiple risks in real time.

DETECT

Autonomously detect drawn weapons, trespassers, no-shows, slip and fall risks, and more.

ALERT

Instantly alert your people and systems and provide situational awareness. Continue monitoring until the situation is resolved.

ACT

Free your resources to act quickly—when seconds can be the difference between an incident and a tragedy.

ONE PLATFORM, MULTIPLE RISKS

IntelliSee detects multiple risks for one simple fee.

WEAPON DETECTION:

- Detect drawn weapons before a shooter enters or before shots are fired
- Advanced AI trained on hand and long guns and other carried devices to ensure accuracy
- Instant alerts with context dramatically speed up response
- Integrates with access controls and other systems

PERSON DETECTION:

- Detect trespassing during designated times and locations
- Alert staff if guards or others are missing for a period of time
- Autonomously monitor venues after pre-event security sweeps
- Detect activity in confined and remote workspaces

SLIP & FALL DETECTION:

- Identify slip hazards before someone falls
- Detect and respond to falls as they happen
- Bookmark footage for future reference
- Escalate response if someone stays on the ground

SMARTER SURVEILLANCE

- Enhances existing security installs without adding personnel or expensive upgrades
- Proactively address threats such as drawn weapons, trespassing, slip and fall hazards, and more with 24/7 autonomous monitoring
- Instant and escalating alerts speed up response
- Simple, intuitive, secure set up with customizable parameters
- Platform solution that constantly learns and improves with each upgrade

PROTECT WHAT MATTERS MOST

In a world of increasing risks, smarter solutions are needed. Proactively protect students, staff, and property with IntelliSee. **Smarter surveillance for a safer world.**®
