EMERGENCIES

Emergencies
Smart Response

The effectiveness of your school's emergency response depends in part on your crisis management strategy. Telecenter U helps you take a proactive approach by letting you pre-record messages that provide instructions for different crisis scenarios.

Whether you're facing a lock out, lockdown, evacuation, weather emergency or any other situation that demands a rapid response, Telecenter systems enable you to take action quickly and confidently.

SCHEDULING

Event Management
Smart Schedules

Students, teachers, staff and parents depend on schedules for a smooth school day, and Telecenter U makes managing those schedules virtually effortless.

Telecenter systems make time management easy, from ringing bells to synchronizing clocks. Manage every schedule for every school from anywhere on your network.

COMMUNICATIONS

Everyday Communication
Smart Days

With Telecenter U, live communication is simple and targeted; it's a solution that can be used all day, every day. Just login on any PC with a web browser within your school, and you're ready to communicate to a single location, a group of facilities or your entire district.

Critical Notifications for a Wide Range of Emergencies

- District-wide notifications from a single web-based interface
- Emergency check-in notifies staff which classrooms haven't locked down
- Initiate recorded instructions, emergency tones, emails and more to your entire facility with a single touch
- Calls from classrooms keep annunciating until they are answered

Emergency sequences triggered from a phone, web browser or panic button allow for an immediate customized response.

Manage Any Event

- Class change tones
- Pre-recorded messages
- Playing of music in hallways before and after school and during passing periods
- Holidays, snow days and other school closings
- Adapted schedules (half-day, assemblies, etc.)
- Daylight saving time

Bells and clocks both synchronized to your network time. Calendar and schedules easily managed, school by school or centrally, from an easy web browser interface.

Communicate Daily Operations Messages

- Morning announcements and after hours messaging
- Manage multi-school campuses with ease
- Route internal communications to the right people
- Classroom call buttons allow teachers to get assistance without disturbing teaching

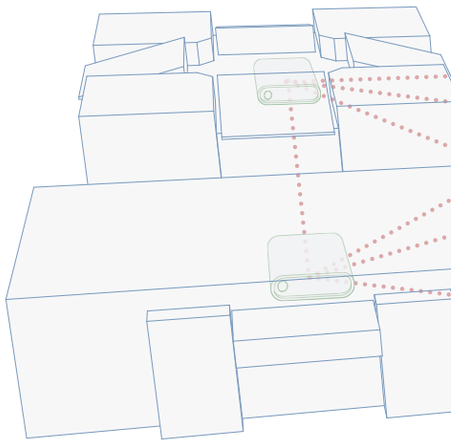
Fully integrated system with paging, intercom, bells, and clocks keeping every day running smoothly.

Your Entire Universe

One Network Solution: Three Mig

From the district office to each and every classroom, your facilities benefit from a network-based platform design by connecting your universe with Telecenter U — while still keeping the specific needs of your schools in mind.

Telecenter U works with your data network, providing a seamless communications solution for every school and every system in your district — from IP addressable speakers in classrooms to a web-based user interface.



Telecenter U provides solutions for:

- **District-wide emergency notification**
- **Event management through synchronized time-keeping systems**
- **Everyday communications through integrated network technologies**

Flexible Migration Options

1

Overlay to your legacy systems

Telecenter U allows your school district to invest in future communications technologies for the district over time. Rauland's solution enhances existing legacy paging and intercom systems with district-wide emergency communications and management. Leverage your installed systems and infrastructure with Telecenter U for district-wide communications that include web-based bell scheduling and district-wide lockdowns.

2

Hybrid without network upgrades

Telecenter U can help your school district achieve seamless, district-wide integrations with a complete critical communications solution — without upgrading the entire network infrastructure. The Rauland solution allows you to replace existing paging and intercom systems while reusing as much infrastructure as possible — delivering a complete critical communications solution.

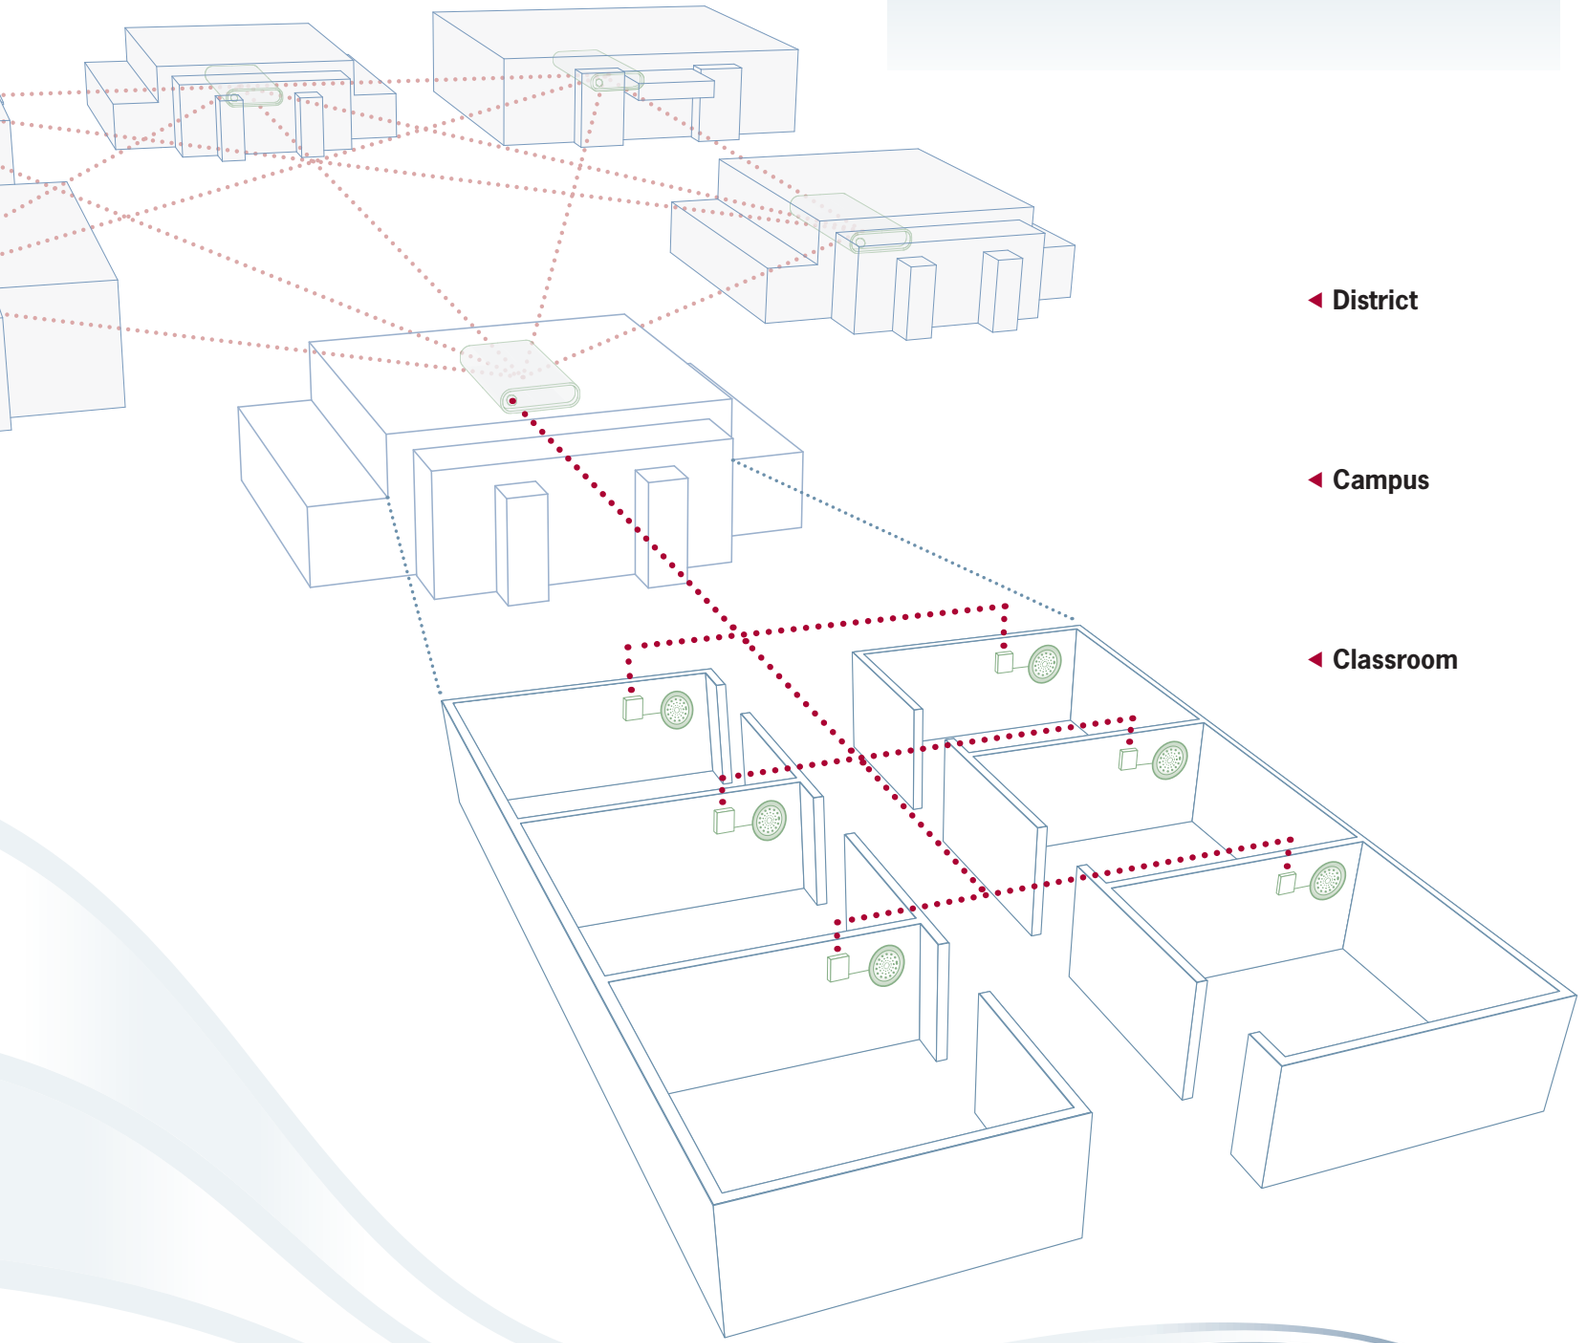
3

Full IP solution

School districts can now manage district-wide and local emergency communications through your network without the need to install older analog-style wiring. Rauland's Telecenter U design delivers a complete network-based solution for all of your critical communications. The Telecenter U solution is IP compatible, using existing network infrastructure to deliver a best-in-class solution for handling emergencies, events and everyday communications.

gration Options

Utilize your data network to bring district-wide communications right to the classroom.



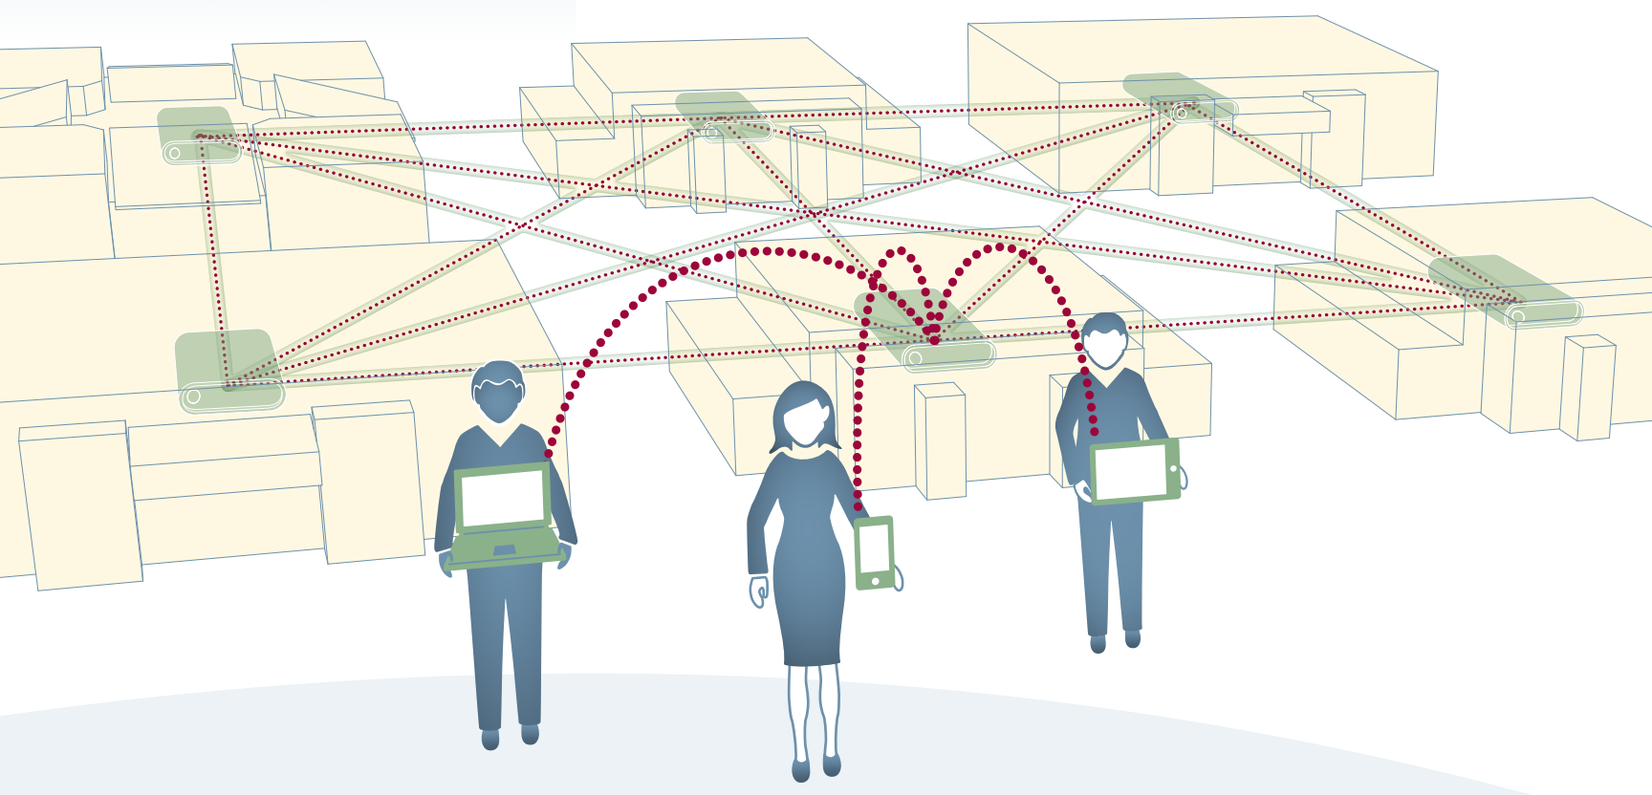
Telecenter U by Rauland

One Critical Communications Solution

Telecenter U uses your district's data network to connect all of your facilities together.

The IP-based, critical communications solution leverages your investment in existing network and cabling infrastructure and legacy equipment by integrating with public address, clock synchronization, security and access control systems — providing a complete solution, customizable to fit every communications need in your district.

Telecenter U connects across all of your locations from anywhere you are.



The Leader In School Communication

For more than 80 years, Rauland has been dedicated to the communication needs of schools just like yours — which is why you will find our communication solutions in more schools than any other brand. Our products are backed by a five-year manufacturer's warranty — our guarantee to you of system quality, performance and reliability that Rauland customers have come to expect.

Service, installation and support is delivered 24x7 through our network of certified distributors, with support from a team of on-staff Rauland engineers.
