CEC's Fire Simulator Training

Protect Your Biggest Assets

Train your staff about proper hands-on and technical skills during an emergency.

engineering company

Using integrated technology and a "60 x 40" screen, CEC brings fire simulation training to your workplace that:

1 Quickly transforms digital images of your building and equipment into fire scenes

2 Protects your organization by tracking participants' names and results

3 Challenges employees with various fire scenes to understand what a true fire situation is like

4 Prepares your employees so they're ready to take action in a fire

5 Reduces liability of your organization during a fire emergency

No live fire required!

You won't need to worry about:

- **Inclement weather**
- **Live fire hazards**
- **Use of active extinguishers**
- **Messy cleanup after training**

**To Schedule Fire Safety Training
Call: 1-800-377-0271
Email: info@cecinfo.com**

During this interactive safety training, learn:

1 **When it's okay to fight a fire and steps that should be taken**

2 **Types of fire extinguishers and when to use them**

3 **Location of fire extinguishers in your workplace**

4 **The PASS method and how to properly use a fire extinguisher**

5 **Required extinguisher maintenance and inspection**
